

## Guttercleaning123 – a revolution in gutter cleaning!

What we offer is not a gutter cover, guard, or insert.

Instead you rotate and empty your gutter safely and easily from the ground!

Forget about moving and climbing a ladder umpteen times, risking life and limb to clean out gutters one scoop at a time, or paying someone two, three or more times a year to do it for you!

With GC123 this dangerous, time-consuming task is gone forever. Replaced instead with three simple steps done safely from the ground!

Pull the gutter over...  
Watch leaves fall out....  
Push the gutter back up.....

Gutter in operating position

Gutter rotated over - leaves gone
